

Dance with Me

David Firth

I have spent my whole life wishing I could have it all.
The further I reach for something the harder I would fall.
Nothing that this world could offer would fill that empty hole.
My heart was getting heavy and darkness filled my soul.

But as I watch you now dancing in the moonlight
my heart started buzzing like a bee.
And I am sure that my life could be changed in a moment
so please baby please, baby Janie pretty please;

Dance with Me (Shake your booty. Shake your booty.)
Dance with Me (Shake your booty. Shake your booty.)
Dance with Me (Shake your booty. Shake your booty.)
Shake your booty. Shake your booty.
You can make my life complete if you'll dance with me.

It's amazing how a precious moment could open up my eyes.
You're like a tropical breeze that clears my anxious mind.
Without a word, I am reminded of what life's meant to be.
A simple dance that rocks to the music deep inside of me.

And as I watch you now dancing in the moonlight
my heart starts buzzing like a bee.
And I am sure that my life had been changed in a moment
so please baby please, baby Janie pretty please;

Dance with Me (Shake your booty. Shake your booty.)
Dance with Me (Shake your booty. Shake your booty.)
Dance with Me (Shake your booty. Shake your booty.)
Shake your booty. Shake your booty.
You can make my life complete if you'll dance with me.

Rock a bye Janie with diaper pants,
When the drums play My Janie will dance.

I hope that you will always remember what you mean to me.
'Cause every time you move to the music you set my spirit free.
And as I watch you now dancing in the moonlight
my heart still starts buzzing like a bee.
And I am sure that my life had been changed in a moment
so please baby please, baby Janie pretty please;

Dance with Me (Shake your booty. Shake your booty.)
Dance with Me (Shake your booty. Shake your booty.)

Dance with Me (Shake your booty. Shake your booty.)
Shake your booty. Shake your booty.
You can make my life complete if you'll dance with me.
