

## **Yes to You**

David Firth

Loved you then. Love you still. Always have and in all ways will.

And it's so nice to know you feel the same way too.

Rich or poor. Health and ill. I'm with you now and in all ways will.

And it's so good to know you'll promise all that too.

Refrain 1:

And it's so nice we can laugh and we love to sing.

You take the high notes; I, the lower end.

And it's so easy to say yes to you for all my life'

Cuz I'm marrying my best friend.

Divisi's queens. Yellow and green. A fifth on the rocks tastes so sweet.

It's brought us here to a whole new world of love.

Wish I could say all will be well. We'll make our own heaven and live through hell.

I'll hold on tight and I'm grateful you will hold on too.

Refrain 2:

And it's so good we can cry when the pain's too much

And walk in silence through a gentle wind.

And it's so easy to say yes to you for all my life'

Cuz I'm marrying my best friend.

Bridge:

Here we stand for all to hear Vows of faithfulness through joy and tears

And from now on wherever we will be we'll be at home,

I'll wear your ring; it's a lovely thing. A sign of love through eternity.

It makes me smile to know that you Will wear mine too.

Final Refrain:

And it's so nice we can laugh and we love to sing. You take the high notes; I, the lower end.

And it's so easy to say yes to you for all my life' Cuz I'm marrying my best friend.a

Because I'm marrying my best friend.
